REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant invention claims coated and isolated carbon nanotubes having specific structure and composition.

The closest prior art references that relate to the claimed invention are Gerard' 134, WO'049 and JP'939. The closest prior art teaches that it is known in the art to make and use nanotubes that are embedded in a matrix. However, the prior art does not teach or fairly suggest the instant invention wherein the coated carbon nanotubes have specific structure and composition as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
